Tradelander: 22 Years of Agility and Excellence

1. The Power of Family-Owned Agility

Since our registration in 2004, Tradelander Scc. and Tradelander Management Solutions (TMS) have built a reputation for professionalism and operational mastery. As a family-owned and managed business, our primary competitive advantage is **Rapid Decision Making**.

- **Eliminating Uncertainty:** Friendly service with an emphasis on clarity, are key to ensuring the delivery is executed to the exact requirements.
- **Direct Accountability:** You deal directly with owners who are personally invested in the security and efficiency of your logistics.
- **Bespoke Flexibility:** We create customized solutions tailored to your specific project requirements, ensuring a mutually beneficial relationship.

2. Our Team: Human-Driven Efficiency

A Fleet is only as effective as the team managing it. We pride ourselves on a full staff complement that combines high-level administrative precision with expert operational planning.

- **The Operations Hub:** Our administrative department is specialized in high-speed document management, ensuring that invoices and P.O.D.s are accurate and returned timeously to maintain seamless business cycles.
- **Strategic Planning:** Our team utilizes 22 years of industry knowledge to mitigate business risk, manage fleet variables, and ensure that every vehicle in our charge operates at its maximum potential.
- **Vetted Professionals:** Every driver undergoes rigorous screening and continuous training to meet our high risk-management Standards.
- **Commitment to Growth:** Through our Junior Management Mentorship Program, we actively invest in the future leadership of our company.

Quality Clients*

3. Live Visibility: Real-Time Precision

We have transitioned from traditional technology to a **Live Visibility** model. We believe that real-time information is as critical as the cargo itself.

- ✓ **Live Tracking & Monitoring:** Our fleet is equipped with Track systems, including visual tracking on trailers and dual-view cameras.
- ✓ **Active Communication:** We provide proactive **WhatsApp** updates and hourly feedback, so your team is always informed of the current status.
- ✓ **Instant Digital Documents:** Drivers utilize tablets to scan and return P.O.D.S instantly upon off-loading.
- ✓ **Closed-Loop Reporting:** Once the order life cycle is complete, a full digital document pack is provided immediately, followed by the physical originals.

Skilled Deliveries for Quality Clients

4. Specialized Fleet: The 1 to 15 Ton Tautliner Advantage

While we manage a diverse range of vehicles, our specialized **1 to 15-ton tautliner fleet** provides a significant advantage over our competitors.

- ✓ **Versatile Solutions:** This specific fleet allows us to assist with requirements that are too large for small delivery vans but too small for heavy haulage.
- ✓ **Secure & Efficient:** Our tautliners offer the weather protection of a closed body with the speed of side-loading, and are fully Hazchem compliant.
- ✓ **Owned and Managed:** Every vehicle in this fleet is owned and managed exclusively by the Tradelander team to ensure maximum availability.

Serviced Routes: Extensive Regional Reach

Our logistics network is deeply established across the most critical trade corridors in Southern Africa.

CORE STRENGTH REGIONS	CROSS-BORDER EXPERTISE
Gauteng	Botswana
Western Cape	Namibia
KwaZulu-Natal (KZN)	Zimbabwe
Eastern Cape	Mozambique
Limpopo	Zambia
Mpumalanga	Lesotho
North West	Eswatini
Free State	
Northern Cape	

Skilled Deliveries for Quality Clients

6. Compliance & Security

We maintain the highest industry standards to protect our clients' assets.

B-BBEE Level 2: A strong commitment to empowerment and enterprise development.

Comprehensive Risk Management: Goods in Transit (GIT) insurance is in place for R1 million to R2 million across the fleet.

Full Regulatory Compliance: Fully compliant with NBC, WCA, and RTMS requirements.
